DETAILED ACTION

Claims 1-42 are pending in this application.

Action Summary

1. The rejection of claims 1-11 and 34-36 under 35 U.S.C. 102(b) as being anticipated by Schor et al. is being maintained for the reasons stated in the previous office action.
2. The rejection of claims 12-33 under 35 U.S.C. 103(a) over Satoh is being maintained for the reasons stated in the previous office action.

Response to Arguments

3. Applicant's arguments filed August 5, 2003 have been fully considered but they are not persuasive.

Applicants argue that neither of the cited references discloses the compaction pressures in pounds per square inch per gram (psi/g) as claimed. It is the position of the examiner that the applicants have not showed the criticality of psi/g verses psi. Applicant has not shown what unusual result occurs when less compression is used as opposed to high compression.

Disposition of Claims

4. Claims 1-36 remain rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
